					Always	Usually	Often	Sometimes	Rarely
How frequently did you attend class?	25	74%	4.96	0.20	96%				4%

Any additional comments about the instructor.

Curry was a really fun teacher and was good at keeping us engaged in class. He was always willing to help and truly wanted us to get a good grade in the class.

Extremely intelligent and helpful. Very funny too which helps keep students attention.

Mr. Hilton was such a personable person and so easy to talk to. He made the angst of the exhausting subject of statistics bearable. I was so pleased and honored to have him as a teacher. I wish I had more classes to take in his subject area so that I could learn more from him.

Curry Hilton is a professor like no other. He is hands down the best professor I have ever had at this university, and I have taken many good ones to compare. He was always there for his students and never failed to explain the material flawlessly.

Mr. Curry was an awesome professor and he taught ST260 way better than the others I have taken. I had to complete this class twice but Curry has made me understand it a lot better now. I enjoyed his class and encourage others to take him in the future. THANKS Mr. Curry

Curry was the man. Made everything as clear as they could be and would answer any question you had to make sure you understood what was going on in the class/problem.

energetic teacher, made class interesting, replied quickly to questions or concerns, understanding, very reasonable

Really knows how to connect with students. Understands that mentality of students and is willing to work with the individual

Good.

I LOVED Curry! He was amazing. Even though the course was tricky, he explained very well. I'd definitely take him again not that I'm eager to take another statistics course.

the tests and the problem sets were a bit confusing, and i'd suggest in terms of the problem set, ask if people would rather work in groups or by themselves, and find a good way in which to form groups

Great teacher, knows the material and explains it in a way that is easy to understand

Any additional comments about the course.

Good.

Interesting material.
